Rafiki
Education

Fighting poverty through education.

Rafiki Education

Rafiki Education is supporting Tanzania's education system through infrastructure projects, empowering teachers through professional development, and providing scholarships for underprivileged children to help break the cycle of poverty.

INFRASTRUCTURE DEVELOPMENT: Rafiki is assisting in the establishment and improvement of facilities and infrastructure in schools and educational institutions. To date, we have supported the construction of 29 double classrooms, drilling of 19 water wells and rehabilitation of three more in the Dar es Salaam Region. Rafiki supports PEC Pre and Primary School in Kilwa, and has contributed to the construction of classrooms, a dormitory, cafeteria, media room and teachers' accommodation.

PROFESSIONAL DEVELOPMENT: Rafiki is building capacity within the Tanzanian education sector by training and upskilling teachers for better learning outcomes. Rafiki has facilitated three professional development teaching courses in Tanzania and one in Australia and is currently supporting PEC School with professional development.

SCHOLARSHIP SUPPORT: Rafiki facilitates the sponsorship of underprivileged, and often orphaned, school children to ensure they have access to a quality education, paving the way for a brighter future. Rafiki is currently supporting more than 40 bright young students to board at PEC Pre and Primary School in Kilwa.

More than 50 students have received a Rafiki scholarship and the students who have graduated from PEC are continuing to achieve excellent results at Secondary School.

Supported since grade three,
Hassan has just completed his Regional Exams.
PEC School ranked first in the Region out of 529 schools
and 22,005 students, and Hassan was
the highest-ranking student!

Supported since grade five,
Hajjat gained entrance to Mtwara Technical College
in Mwanza and is now in her second year,
and on the path to achieving her dream
of becoming an engineer.

Education is the key to a brighter future.

PEC Pre and Primary School Scholarship Program

Tanzania's school system is overstretched and under-resourced, resulting in poor educational outcomes. Less than ⅓ of children make it to secondary school.

The Rafiki scholarship program identifies bright primary school students from the local public schools around Kilwa, who come from disadvantaged families and would otherwise not be able to afford a quality education.

PEC School is providing a high-quality education and a safe and healthy environment for all its 420 students. PEC regularly tops the National Exams, and being an English medium school, the children have a far greater advantage when transitioning to high school.

For just AUD$1,400 per year, a child can attend PEC School and receive a private education, full board, uniforms, school supplies and excursions. This will give them the best opportunity to be accepted into a quality Secondary School and the chance for a brighter future.

As a sponsor, you will receive regular updates, photos, videos and communication from your sponsored child and will be invited to be part of their journey of growth and development. With no administration fees, every dollar raised go directly towards the child's education and boarding expenses.

You can join a small group of sponsors making a huge difference in the lives of vulnerable children in Tanzania.

How you can help...

Break the poverty cycle by sponsoring a student in Kilwa, Tanzania

You'll be providing a primary school student with a scholarship which includes;

- Quality education, learning materials & uniforms
- Boarding & meals with reliable amenities
- A safe & nurturing environment

Everything required for a successful education!

$1,400 p/a
